

### **McGregor and Philips Street Intersection Improvements**

The design of the McGregor and Philips Street intersection has been completed. The project will be bid and construction will begin as soon as all the needed right-of way is obtained. The City is hopeful this will be completed in the near future so construction can begin the summer of 2011.

The intersection of Highway 169 (Phillips Street) and McGregor will be improved with new traffic signals to provide protected left turns off of 169 onto McGregor. The intersection will have new curb and gutter, minor storm sewer changes and a new asphalt overlay.

The total estimated cost of the project is \$215,000 with \$88,000 being paid for by a grant from the IDOT Traffic Safety Improvement Program.
